

UNIVERSITY-WIDE STUDENT LEARNING OUTCOMES

The following University-wide student learning outcomes describe the values or skills that should be demonstrated by all DMU graduates:

1. Graduates will be able to demonstrate foundational and applied understanding as appropriate to their profession/field.
2. Graduates will demonstrate ethical and professional behavior consistent with standards of their profession and the DMU community.
3. Graduates will be aware of, respect, and seek to understand diverse perspectives and individual differences in their professional role.
4. Graduates will apply their understanding of teamwork to enable effective collaboration and improve outcomes.
5. Graduates will utilize research or critical inquiry skills to address questions relevant to their profession/field of study.
